VALVE BOXES ARQUETAS

Among Rain's many patents we also find the EZ-OPEN system of the valve boxes, a simple idea that has changed the way to open valve boxes. The handle integrated in the valve boxes reflects 100% Rain's philosophy of simplifying and speeding up the work of its customers.

In addition to the EZ-OPEN patent, there is the recently patented rack for EZ-OPEN 113 and 115.

Entre las numerosas patentes de Rain también encontramos el sistema EZ-OPEN de las arquetas, una idea sencilla que ha cambiado la forma de abrir las arquetas. El asa integrada en las arquetas refleja al 100 % la filosofía de Rain de simplificar y agilizar el trabajo de sus clientes.

Además de la patente EZ-OPEN, existe la rejilla recientemente patentada para EZ-OPEN 113 y 115.

ADVANCED FUNCTION FUNCIONES AVANZADAS

01

INTEGRATED VALVE VÁLVULA INTEGRADA

EZ-OPEN

03

RACK FOR EASY OPEN REJILLA PARA UNA FÁCIL APERTURA

> 04 BRACKET ABRAZADERA

01

INTEGRATED VALVE. ¾" integrated valve.

VÁLVULA INTEGRADA. Válvula ¾" integrada.

PZCR RN 15

02

EZ-OPEN. The patented RAIN EZ-OPEN opening system makes it extremely easy to open the valve box.

EZ-OPEN. El innovador sistema patentado EZ-OPEN consiste en un asa integrada en la arqueta que simplifica la apertura y acelera el trabajo del instalador.

PZCM15, PZCM25, PZRM113, PZRM115, PZRM117

03

RACK FOR EASY OPEN. The RAIN collector grille allows the construction of the starting collectors with extreme ease and quick.

REJILLA PARA UNA FÁCIL APERTURA. La rejilla para colectores RAIN permite la construcción de los colectores de arranque con extrema facilidad y rapidez.

PZRM113, PZRM115

04

BRACKET. The integrated hook on the valve box allows the positioning of the IP68 RAIN controllers away from the ground and water.

ABRAZADERA. Una abrazadera integrada en el borde superior del cuerpo de la arqueta que permite enganchar los programadores RAIN IP68, limitando así el contacto con tierra y agua.

EZOPEN PZRM 111

Rectangular mini valve box suitable for small systems with up to 3 solenoid valves

Raised grid 111 allows easy assembly of the starting manifold. The maximum capacity of the raised grid is 3 1" solenoid valves.

Rain's patented easy handle opening system allows quick access to the solenoid valves.

Rain's connector and control unit hook ensures clean and easy installation of components while facilitating system maintenance

03

The compact size of the PZRM 111 valve box is ideal for small residential installations that require a limited number of solenoid valves. The PZRM 111 raised grid allows for the convenient installation of up to 3 1" solenoid valves (model RN 150 and RN 155 Plus). The raised grate, also available in the pre-assembled Smart Vision version, allows the starting manifold to be kept neat and easily inspected.

Technical specs PZRM 111

Handle for easier opening of the valve

Rain's control unit hook

Connector holder for a tidier and more organized valve box for faster maintenance

Material: 100% polipro

Raised grid

Made in Italy

217 mm
